What are Occupational Standards(OS)?

- OS describe what individuals need to do, know and understand in order to carry out a particular job role or function
- OS are performance standards that individuals must achieve when carrying out functions in the workplace, together with specifications of the underpinning knowledge and understanding

Introduction

Qualifications Pack- Blade Sawing Supervisor

SECTOR: GEMS & JEWELLERY

SUB-SECTOR: Diamond processing

OCCUPATION: Rough cutting and sawing

REFERENCE ID: G&J/Q4402

ALIGNED TO: NCO-2004/ NIL

Blade Sawing Supervisor: In the Indian diamond processing industry, the blade sawing supervisor is in-charge running the day-to-day work flow and processes of the blade sawing department.

Brief Job Description: The individual on this job, allocates work to subordinate workers, trains and educates them, instructs about the job to be performed on daily basis, checks quality of output, manages team and systems, carries out performance appraisal and ensures safety of the diamond, in order to ensure accurate cut as per marking to derive maximum value from a rough as per company's objectives and delivers on time.

Personal Attributes: The job requires the individual to have: attention to details; good eyesight; ability to work on machines while standing; a sharp mind to spot and correct errors; ability work for long hours not necessarily on one desk; high level of concentration and patience.

Performance Criteria	As described in the relevant OS units

National Occupational Standard

Overview

This unit is about supervising the blade sawing operations by monitoring, instructing, educating and training in order to ensure accurate cut along the marking, without any damage to the stone and the weight loss as per the company's policies. Dissemination of information and knowledge and management of work flow and team are important aspects of this job role.

G&J/N4404

Supervise blade sawing operations

National Occupational Standard

Unit Code	G&J/N4404
Unit Title (Task)	Supervise the blade sawing operations
Description	This OS unit is about supervising and managing the work flow, teamwork, quality of output and productivity of blade sawyers including the dopers/helpers
Scope	<p>This unit/task covers the following:</p> <p>Deliver the bag of rough diamonds to blade sawyer /doper</p> <ul style="list-style-type: none"> • match the stone type, weight and number as mentioned on the bag • allocate work to doper, blade sawyer according to their work load and level of expertise, e.g., type of roughs handled in the past, size and weight of rough, type of cut required • instruct about the delivery time, tools and machines, and consumables to be used and quality requirements • educate about a new requirements or different type of doping/ cutting requirement • explain the hazards involved and precautions to be taken to avoid accidents <p>Describe the doping requirement to doper</p> <ul style="list-style-type: none"> • instruct about the sequence of side, angle and alignment as per marking for doping • remind about secure doping and type of dop to be used • explain the permitted level of stone loss and precautions to be taken so that there is no damage the stone as well as workers • describe the final outcome as desired as per plan <p>Monitor work done by the blade sawing operator</p> <ul style="list-style-type: none"> • ensure the placement of the rough on the blade sawing machine is correct by the operator • remind to supply air on the blade to keep it cool • instruct the operator about the speed of work and to handle multiple machines to ensure timely delivery <p>Perform quality check</p> <ul style="list-style-type: none"> • ensure the work done by the blade sawyer or helper is complete and correct • ensure that all diamond has been cut accurately along the line of marking as per plan and there has been no damage to the stone in the process • ensure that the weight loss in the process is under the prescribed limit <p>Ensure safety and security</p> <ul style="list-style-type: none"> • ensure that there is no damage to any team member or to a stone while using the machines and tools. • instruct the correct way of using machine and tools to avoid accidents • explain the hazards of dealing with different chemicals, machines and tools • ensure each team member follows proper safety procedures and wears safety

G&J/N4404

Supervise blade sawing operations

	<p>gear as prescribes by the company</p> <ul style="list-style-type: none"> • train the team members about maintenance of the machine tools and the way to organize the same <p>Manage accounts of stones</p> <ul style="list-style-type: none"> • match the rough type, weight and number of diamonds received against those handed over to doper or the operator • ensure that there is no loss of stone by any team member during the entire sawing process • return bagged cut roughs to the Manager through the issue return person <p>Review the performance of the team members for performance appraisal</p> <p>Handle problems related to:</p> <ul style="list-style-type: none"> • mismatch in rough issued and received • problem with the planned cut which may lead to breakage • unclear marking • defective or inadequate number of dops/ holders • inadequate quantity of consumable such as adhesives • machine break down or wear and tear of tools, etc. • workforce shortage • personal issues among workers • reasons for anticipated delays that may adversely affect delivery
Performance Criteria(PC) w.r.t. the Scope	
Element	Performance Criteria
Quality of output	To be competent, the user/individual on the job must be able to: PC1. judge the accuracy of cut as per the marking PC2. ensure accurate alignment and secure doping PC3. ensure weight loss planned is within company's prescribe limit PC4. ensure accurate bagging and labelling of the cut diamonds before returning
Productivity	To be competent, the user/individual on the job must be able to: PC5. achieve the productivity in terms of carats or number of pieces as set by the company PC6. deliver in time to next process
Allocating work	To be competent, the user/individual on the job must be able to: PC7. accurately assess the worker's capabilities and work load in order to distribute work for maximum productivity PC8. accurately describe the job at hand to the worker PC9. instruct about precautions to be taken to deliver the job at hand as planned PC10. clearly define delivery schedule and work output requirements PC11. anticipate and be alert about any disruptions and worker's capabilities
Problems handling	To be competent, the user/individual on the job must be able to: PC12. resolve problems related to machine and tools to deliver on time

G&J/N4404

Supervise blade sawing operations

	<p>PC13. resolve problems related to workers and their productivity</p> <p>PC14. encourage workers to achieve higher productivity</p> <p>PC15. rectify faulty marking</p>
Controlling defects	<p>To be competent, the user/individual on the job must be able to:</p> <p>PC16. ensure there is no loss or damage to the diamond while sawing</p> <p>PC17. judge that the marking is correct for the cut required and will not damage the diamond</p>
Process Compliances	<p>To be competent, the user/individual on the job must be able to:</p> <p>PC18. comply with relevant legislation, standards, policies and procedures</p>
Knowledge and Understanding (K)	
A. Organizational Context (Knowledge of the company / organization and its processes)	<p>The individual on the job needs to know and understand:</p> <p>KA1. company's policies on: acceptable limits of weight loss; personnel management; delivery standards; safety practices and procedures; customer orientation; performance measurement and incentive policies</p> <p>KA2. work flow involved in company's diamond processing</p> <p>KA3. importance of the individual's role in the workflow</p> <p>KA4. reporting structure</p> <p>KA5. issue return procedures followed by the company</p> <p>KA6. typical customer profile and market trends</p> <p>KA7. specialization area of the company (size, clarity, shape, quality, etc. of diamonds)</p> <p>KA8. diamond processing objective of the company, e.g. maximizing yield, maximizing clarity, etc.</p> <p>KA9. management of worker, quality and productivity</p> <p>KA10. conflict resolution and problem solving</p> <p>KA11. performance appraisal</p>
B. Technical Knowledge	<p>The user/individual on the job needs to know and understand:</p> <p>KB1. shape, cut, clarity, carat, and physical characteristics of the diamond</p> <p>KB2. alignments for different cuts in a diamond</p> <p>KB3. potential ways that may cause damage to a diamond</p> <p>KB4. potential work hazards, particularly, when using blade sawing machine</p> <p>KB5. blade sawing machine operations</p> <p>KB6. types of inclusions in a diamond</p> <p>KB7. other techniques of cutting</p> <p>KB8. use of various scopes in diamond processing</p> <p>KB9. geometry to understand the angles and symmetry</p> <p>KB10. repair work</p> <p>KB11. uses of different types of tools and materials for different purposes and end results</p> <p>KB12. how to maintain and prepare the tools as per job requirement</p> <p>KB13. tension in a diamond and use of tension machine</p> <p>KB14. use of various scopes in diamond processing</p> <p>KB15. accounting of stones and documentation</p> <p>KB16. team management</p>

G&J/N4404

Supervise blade sawing operations

Skills (S) [Optional]	
A. Core Skills/ Generic Skills	Reading and writing skills
	The user/individual on the job needs to know and understand how: SA1. to read about different types of roughs and their properties SA2. to read descriptions on the diamond packets/ bags SA3. to document work flow, quality standards and outcomes as per company policy SA4. to read company rules/compliance documents required to complete the work
	Calculation and geometry skills
	The user/individual on the job needs to know and understand how: SA5. to check the angles, size and alignment of the diamond
	Communication skills
	The user/individual on the job needs to know and understand how: SA6. to discuss task, schedules, and work-loads with team members, co-workers, manager and other supervisors SA7. to give instructions to the team members about the cut required SA8. to give appropriate instructions and feedback to different levels of workers under his supervision SA9. to educate about safety and work hazards SA10. to train on loss avoidance, productivity and correct steps to follow on the job SA11. to inform about IPR issues pertaining to the company and detecting violations SA12. to resolve inter-personal conflicts between workers and co-workers
	Team management skills
	The user/individual on the job needs to know and understand how: SA13. to distribute work equitably and according to seniority and experience of worker SA14. to encourage workers to share workload and deliver on time SA15. to assess worker requirements in terms of training, tools, machinery, workspace and other facilities SA16. to appraise based on company's standards and workers' performance SA17. to encourage workers to multitask, update and work on new technologies
B. Professional Skills	Understanding planning and marking
	The user/individual on the job needs to know and understand how: SB1. the diamond has to be cut along the marking in order to achieve the planned cut
	Using tools and machines
The user/individual on the job needs to know and understand how: SB2. to work with blade sawing machine and tension machine SB3. to dop a rough on a die/ dop using an adhesive and heating it in an oven SB4. to use use tools like tweezers, eye glass, etc. to hold and view the diamond SB5. the precautions to be taken while using ovens, blade sawing machine, etc. SB6. to clean a diamond using agents like acetone, water, etc.	

G&J/N4404

Supervise blade sawing operations

	<p>SB7. to maintain tools and machines used</p> <p>SB8. to work in a safe environment, i.e., without injuries</p>
	<p>Planning skills</p>
	<p>The user/individual on the job needs to know and understand how:</p> <p>SB9. to plan work for of the team members according to work load and immediate delivery commitments</p>
	<p>Decision making skills</p>
	<p>The user/individual on the job needs to know and understand how:</p> <p>SB10. to decide which team member should be assigned what type of rough</p> <p>SB11. the safety of cutting a rough along the marking</p> <p>SB12. the correctness of the selection of which marking to be cut first by operator</p>
	<p>Reducing loss</p>
	<p>The user/individual on the job needs to know and understand how:</p> <p>SB13. to handle diamonds with care</p> <p>SB14. to minimize damage or loss of any diamond during the sawing process</p> <p>SB15. to report diamond losses via documentation as per company policy</p> <p>SB16. to suggest improvements in order to reduce loss</p>
	<p>Innovative thinking</p>
	<p>The user/individual on the job needs to know and understand how:</p> <p>SB17. to devise new means of working to improve productivity</p> <p>SB18. to suggest different or innovative plans, which may yield higher returns for the company</p>
	<p>Analytical thinking</p>
	<p>The user/individual on the job needs to know and understand how:</p> <p>SB19. to assess the accuracy of the work done by the sawyer or the doper</p>
	<p>Reflective thinking</p>
	<p>The user/individual on the job needs to know and understand how:</p> <p>SB20. to make people work for long hours in a standing position without health problems</p>
	<p>Critical thinking</p>
	<p>The user/individual on the job needs to know and understand how:</p> <p>SB21. to spot process disruptions and delays</p> <p>SB22. to arrange for tools, machines and consumables in time</p>

Overview

This unit is about and respecting intellectual property rights (IPR) of the company's products, policies, procedures and orders.

G&J/N9930

Maintain IPR

National Occupational Standard

Unit Code	G&J/N9930
Unit Title (Task)	Respect IPR of company
Description	This OS unit is about maintaining company's intellectual property
Scope	<p>This unit/task covers the following:</p> <p>Protect company's Intellectual Property Rights (IPR)</p> <ul style="list-style-type: none"> • prevent leak of new orders to competitors by reporting on time • prevent leak of the manufacturing processes or the policies followed by the company • be aware of any of company's product patents • report IPR violations observed in the market, to supervisor or company heads
Performance Criteria(PC) w.r.t. the Scope	
Element	Performance Criteria
Respecting IPR	<p>To be competent, the user/individual on the job must be able to:</p> <p>PC1. spot plagiarism and report</p> <p>PC2. understand rationale of patents and IPR</p> <p>PC3. avoid being involved in IPR violations</p>
Knowledge and Understanding (K)	
A. Organizational Context	<p>The individual on the job needs to know and understand:</p> <p>KA1. company's policies on IPR, plagiarism and order leaks</p> <p>KA2. company's patented products</p> <p>KA3. market trends and company's unique product range</p> <p>KA4. reporting structure</p>
B. Technical Knowledge	<p>The individual on the job needs to know and understand:</p> <p>KB1. basics of patents and IPR laws</p> <p>KB2. how IPR protection is important for competitiveness of a company</p>
Skills (S) [Optional]	
A. Core Skills/ Generic Skills	Communication skills
	<p>The user/individual on the job needs to know and understand how:</p> <p>SA1. to effectively communicate any observed IPR violations or leaks</p>
B. Professional Skills	Decision making
	<p>The user/individual on the job needs to know and understand when and how:</p> <p>SB2. to report sources of IPR violations</p>
	Reflective thinking
	<p>The user/individual on the job needs to know and understand how:</p> <p>SB3. to learn from past mistakes and report IPR violations on time</p>
	Critical thinking
<p>The user/individual on the job needs to know and understand how:</p> <p>SB4. to spot signs of violations and alert authorities in time</p>

National Occupational Standard

Overview

This unit is about team work and level of communication with subordinates, colleagues, seniors or clients in the diamond processing industry. It determines the ability to work as a team member, team leader and trainer and multi-task in order to achieve the required deliverables on schedule.

G&J/N9932

Coordinate with the team and others

National Occupational Standard

Unit Code	G&J/N9932
Unit Title (Task)	Coordinate with team members,, colleagues and seniors
Description	This OS unit is about communicating with subordinates, colleagues and seniors in order to maintain smooth and hazards free work flow
Scope	<p>This unit/task covers the following:</p> <p>Interact with subordinates (team members) to:</p> <ul style="list-style-type: none"> • give work instructions to the team members • receive communication from team members about process-flow improvements, product defects received from previous process, repairs and maintenance of tools and machinery as required • instruct about the delivery time, tools and machines, and consumables to be used and quality requirements • educate about a new requirements/objectives of the company • train about using and maintenance of machines and tools • communicate any potential hazards or safety measures to be followed • listen to various problems reported by the team members and provide solution • quality check completed work from the team member and give feedback <p>Interact with superiors to:</p> <ul style="list-style-type: none"> • receive work instructions and feedback from reporting manager or other senior • communicate to reporting superior about process-flow improvements, product defects received from previous process, repairs and maintenance of tools and machinery as required • communicate to reporting superior about employee management, i.e., shortages or performance related • communicate any potential hazards or expected process disruptions • re-work based on feedback provided by superior on product, process and people • handover completed work to superior <p>Interact with colleagues within and outside the department to:</p> <ul style="list-style-type: none"> • work as a team with colleagues and share work as per their or own work load and skills • work with colleagues of other departments • communicate an discuss work flow related difficulties in order to find solutions with mutual agreement • receive feedback from QC and rework in order to complete work on time
Performance Criteria(PC) w.r.t. the Scope	
Element	Performance Criteria
Interaction with subordinates	To be competent, the user/individual on the job must be able to: PC1. clearly communicate instructions and work requirements PC2. understand the problems

G&J/N9932

Coordinate with the team and others

Interaction with superior	To be competent, the user/individual on the job must be able to: PC3. understand the work output requirements PC4. understand company policy and rule PC5. deliver quality work on time as required by reporting any anticipated reasons for delays
Interactions with colleagues and other departments	To be competent, the user/individual on the job must be able to: PC6. put team over individual goals PC7. resolve conflicts and multitask
Knowledge and Understanding (K)	
A. Organizational Context (Knowledge of the company / organization and its processes)	The individual on the job needs to know and understand: KA1. company's policies on: acceptable limits of weight loss at each stage; incentives; delivery standards; safety and hazards; integrity and IPR; and personnel management KA2. work flow involved in company's diamond processing KA3. importance of the individual's role in the workflow KA4. reporting structure KA5. typical customer profile and market trends
B. Technical Knowledge	The individual on the job needs to know and understand: KB1. how to communicate effectively KB2. how to build team coordination KB3. how to manage work flow and personnel KB4. how to motivate team members
Skills (S) [Optional]	
A. Core Skills/ Generic Skills	Teamwork and multitasking The individual on the job needs to know and understand how: SA1. to motivate team members to deliver right quality output on time SA2. to communicate for the purpose of: training, resolving problems related to machines or personnel, giving specific instructions and driving work
B. Professional Skills	Decision making The individual on the job needs to know and understand: SB1. how to report and address potential areas of disruptions to work process SB2. when to report to superior and when to deal with a colleague depending on the type of concern SB3. how the product has to be processed for giving accurate instructions to team members Reflective thinking The individual on the job needs to know and understand: SB4. how to improve work processes for greater output SB5. how to resolve inter-personal conflicts among workers and departments Critical thinking The individual on the job needs to know and understand: SB1. how to spot process disruptions and delays SB2. how to allocate work for optimum output of required quality and quantity

Definitions

Keywords /Terms	Description
Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Function	Function is an activity necessary for achieving the key purpose of the sector, occupation, or an area of work, which can be carried out by a person or a group of persons. Functions are identified through functional analysis and form the basis of OS.
Sub-function	Sub-functions are sub-activities essential to fulfil the achieving the objectives of the function.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the knowledge and understanding they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria	Performance criteria are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (OS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.
Knowledge and Understanding	Knowledge and understanding are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish

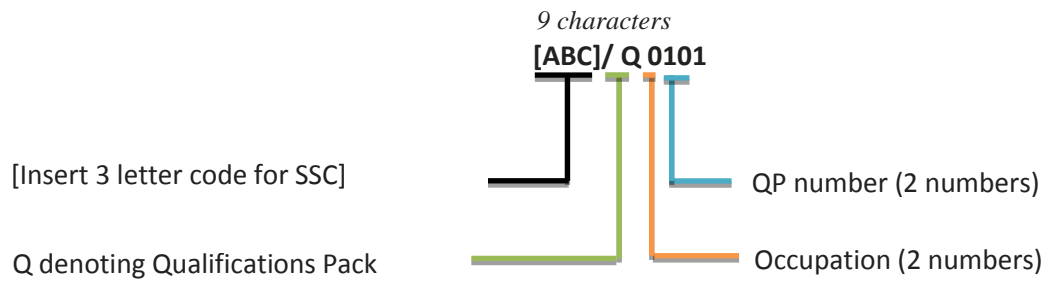

Acronyms

	specific designated responsibilities.
Core Skills/ Generic Skills	Core skills or generic skills are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Keywords /Terms	Description
IPR	Intellectual Property Rights
NOS	National Occupational Standard(s)
NVQF	National Vocational Qualifications Framework
NSQF	National Qualifications Framework
